## Ultra Benefits® Eye Gel

*Hydrating Brightening Gel*

Hydrating gel with peptides and Tara tree extract firms and brightens eye contour. Antioxidant Lipochroman® protects from environmental aging.

### Benefits

- Targets crow's feet and dark circles
- Helps protect delicate eye skin from environmental toxins

### Featured Ingredients

**Antioxidant Lipochroman®:** High potency, strongest antioxidant on the market, protects from oxygen and nitrogen free radical formation (no other antioxidants protect against nitrogen free radicals) to improve the appearance of skin aging changes, including wrinkles, uneven pigment, loss of elasticity and skin redness.

**Chromabright®:** Advanced fade ingredient that decreases the appearance of uneven pigment and age spots while providing UVA, UVB and HEV protection. Chromabright® is 50% more effective at skin brightening than kojic acid.

**Firming Peptides:** Sourced from the far reaches of Antarctica, these peptides strengthen collagen to reduce the appearance of fine lines and crow's feet.

*\*Based on lab results from T-Bar Assay for oxygen free radical activity.*

### Directions

After cleansing, apply evenly to eye contour (avoiding eyelids) twice daily.

### Ingredients

Water, Methyl Gluceth-10, Acetyl Tetrapeptide-5, Algae Extract, Pullulan, Sodium Hyaluronate, Dimethylmethoxy Chromanyl Palmitate, Dimethylmethoxy Chromanol, Xanthan Gum, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Disodium EDTA, Sodium Hydroxide, Caprylyl Glycol, Hexylene Glycol, 1,2 Hexanediol, Phenoxyethanol.
